## Description

### Multi-encoder & multi-streaming

#### High-Efficiency Video Coding (HEVC)

H.265 or HEVC is a video compression standard, the successor of H.264. In comparison, H.265 offers about double the compression ratio at the same level of video quality or substantially improved video quality at the same bit rate. Thus saving bandwidth and recording space.

#### ONVIF

Multiple options are available to easily integrate the BL2026M into a video management system. In support of open standards, the BL2026M is compliant with ONVIF (Profile S, Profile G, Profile T).

#### Image enhancement

The BL2026M features a set of tools to enhance the image quality, such as smart IR, Defog, BLC, and 3D noise reduction.

#### Ease of installation

The BL2026M comes with mounting options (separately sold) for pendant wall mounting and pole mounting.
