FD950

5MP Fixed Camera, 2.7-12mm motorized lens, H.265/H.264, IR

D E S C R I P T I O N

The FD950 is a robust outdoor fixed dome camera with built-in IR illumination providing clear images under any lighting condition. The camera has multi-stream capabilities for simultaneously streaming of H.265/H.264/MJPEG. Multiple combinations of resolution and frame rate can be configured. To have a secured network environment, FD950 is capable of streaming out by HTTPS protocol.

Description

Multi-stream multi-codec
The camera has quad-stream capability for simultaneous streaming of H.265, H.264 and MJPEG. Multiple combinations of resolution, frame rate, and encoding can be configured to fit all possible live viewing and recording scenarios. The 5 Mpixel resolution is available at 25/30 fps still offering multiple exposure WDR (or HDR, in short) with the possibility to add a second stream.

Open standards
Multiple options are available to easily integrate the FD950 to a video management system. In support of open standards, the camera is compliant with the ONVIF Profile Q for out of the box installation, profile G from local recording and profile S for streaming and VMS compatibility.

Image enhancement
The FD950 utilizes advanced image processing technology. Crisp and detailed 5MP images with an extremely high dynamic range in real time due to multiple exposure HDR within one frame. Back-light and High-light compensation enhances image-visibility in difficult lighting situations. In addition the camera provides for 3D motion compensated noise reduction for the best images.

Power source choices
The FD950 can be powered by 12 Vdc, 24 Vac, or over the network with PoE.
