## Description

## Multi-stream high definition

The integrated camera has a multi-stream capability for simultaneous streaming of H.265, H.264 or MJPEG. Up to 4 combinations of resolutions and frame rates can be configured to satisfy different live viewing and recording scenarios.

## Open standards

Multiple options are available to easily integrate the PD900 to a video management system. In support of open standards, the PD900 is compliant with a range of VMS's, it supports ONVIF (Profiles S, G, and T) and the Sigura API.

#### PT Servo feedback

The PD900 pan and tilt motors are controlled by servo feedback, keeping track of the PTZ position at all times. No more drifting PTZ head due to shocks, vibration or vandalism. When the head is forced from its position, it will return immediately.

#### Power source choices

The PD900 can be powered with 24Vdc, 24 Vac or over the network with PoE+ sources.
