## TANLock Rack handle - RFID / mechanical overwrite

### DESCRIPTION

iProtect not only offers a modern and flexible Access Management System to secure buildings and other locations, but also offers an efficient way to protect your knowledge, processes and data through a central and tamper-proof locking system, the "TANLock Rack handle".

TANLock Rack handle may be used for all areas which need to be secured such as, data centers, control cabinets on production plants or in your critical infrastructure. With implementing this system, you ensure that only authorized persons have access to your business-critical areas. Furthermore, you can monitor the status of each individual cabinet door online. TANLock Rack handle, is available in the colors black and silver.
