

VL0410-6-18

Lens, 1/1.8inch, 3.6-10mm, F1.9, DC-iris, 6MP

DESCRIPTION

The VL0410-6-18 is the short range lens for the BC5004 box camera from the 5000-series cameras.

The suitable lenses play an important role in cameras that make the image focused and clear. TKH Security offers the essential options for DC iris control as well as different focal ranges to fit in different applications. To ensure the distinction of image in day and night, the lenses are fitted with high quality IR corrected glass optics.
